

# Smarter Working Made Simple

The TASKalfa 7054ci series adapts to your challenges.

**TASKalfa 2554ci/3554ci/4054ci**  
**TASKalfa 5054ci/6054ci/7054ci**

**Color Multifunction Product  
for A4/A3 Format**

# Born to be Extraordinary.

KYOCERA Document Solutions is Extraordinary for

- Broad Range of Multifunction Devices and Printers
- Optimized Total Cost of Ownership (TCO)
- Reliable with Long Life Drum and Parts
- New and Advanced Technology

KYOCERA Document Solutions strives to be a company that contributes to the society and demonstrates a "Customer First" principle by providing customers with maximum value to increase their satisfaction. By adhering to the mission of producing document management devices that take balance between "Economy" and "Ecology", KYOCERA Document Solutions succeeds in developing document management devices with advanced technologies which help customers to optimize office productivity and efficiency at a low total cost of ownership and, at the same time, improving environmental performance.

With the TASKalfa 7054ci series you get:

#### User-friendly interface

Tablet-like functionality makes life easier.  
No more frustration at the printer!

#### Fast print and scan speeds

Get the documents you want when you need them and  
watch your productivity soar.

#### Smart and scalable solutions

Get your team working as one with solutions that help  
workflows run smoothly and efficiently.

#### Devices you can rely on

Kyocera devices are built to last the test of time.  
Get ready to say goodbye to costly downtime!

#### Optimal security

With in-depth security capabilities, you can be rest assured  
that your confidential data is safe with Kyocera.

# Outstanding Image Quality

The TASKalfa 7054ci series gives you incredible image quality and outstanding colors with high resolution and superior image processing.

## Delivers realistic image with high resolution

Provides printing resolution of 1,200dpi. You will enjoy sharp, detailed print results even in fine lines and small characters, giving your image a bright and vivid impression along with the realistic texture.

## Impressive quality even for repeated copies

Reduces the color difference with accurate color matching when digital copying, and also avoids quality degradation during repeated photocopying.

### Stable print quality

The 1st page

The 1000<sup>th</sup> page

Keeps the stability of color performance, no matter for the 1<sup>st</sup> page or the 1,000<sup>th</sup> or more.

### Beautiful contrast

Existing model

New model

Provides a better contrast with incredible deep blacks.

### High gloss

Existing model

New model

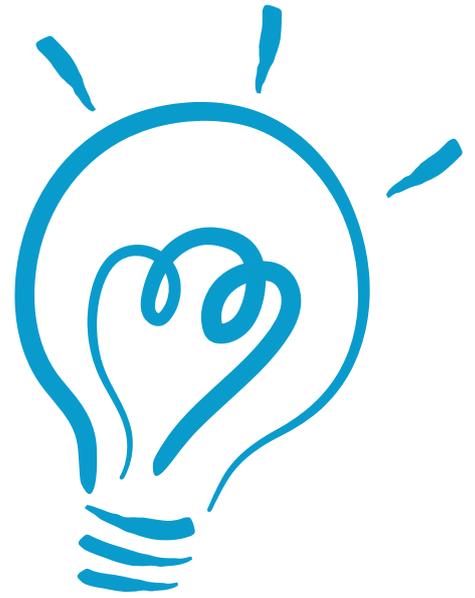

Performs a glossy finishing on images.

# Artificial Intelligence

Incorporating the latest technology, the devices provide a solution that will drive productivity by helping companies work smarter to produce higher quality results in less time than ever before.

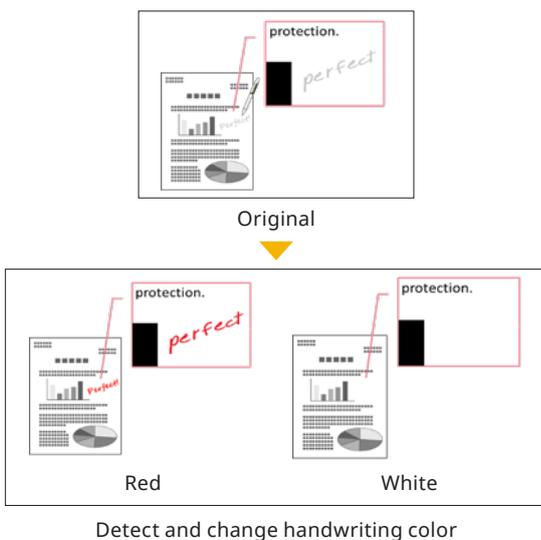

With our latest AI technology, the TASKalfa 7054ci series enables users to emphasize or overwrite the handwritten parts of a document without changing the format or image when scanning. Moreover, users can now avail of the AI-powered Super Resolution function which helps breathe new life and enhanced quality into low-resolution photos and logo images.

## Future-proof your business!

### New Handwriting tool

The enhancement handwriting tool creates major advances in the user experience, making it easier to add better emphasis or highlight handwritten notes on a document, or to remove them altogether. The implications of this include: time saved, reduced waste (no need to reprint documents), and a greater capacity to share information. This could be especially useful in education, where scanning documents and note-taking are inevitable. Physical copies of documents can be shared, distributed, and written on, all while saving a lot of time and printing costs.

### Super Resolution feature

With the new AI functionalities, there's no need to invest extra time and effort to improve low resolution images. The KX printer driver supports the 'Super Resolution' function that compares information from images that already exist online, identifying and converting low-resolution images to higher resolution, creating slick, professional looking output. Pixelated images are smoothed to create more attractive and neater documents and visuals, ultimately this results in a better looking product that communicates more effectively, particularly beneficial for marketing materials where there are major demands for high-quality production.

# Redefining Usability

Less confusion means less errors. With the TASKalfa 7054ci, you get a user interface that minimizes confusion and maximizes your capabilities, so that you can allocate more time to your other business operations.

Equipped with a **10.1-inch resistive display**, the new series boasts an **intuitive and easy-to-use, full-color touch panel**, while offering fast and simple access to a wide range of document management functions including HyPAS applications. Meanwhile, hardware keys are minimized, and users can enjoy a seamless transition between the user interfaces while using the **tablet-like display**.

The TASKalfa 7054ci combines a **simple, slick and fresh design with gesture-based operations**. With a clear emphasis on important information and easy to understand icons, users can enjoy a hassle-free printing experience.

**Fewer pains. More gains.**

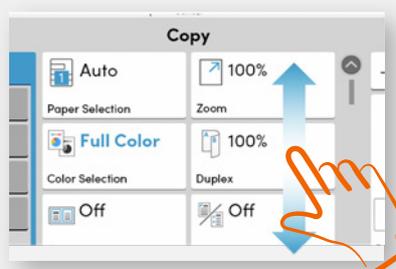

## Meet the new interface

With standard colors and intuitive icons, carrying out tasks at the printer has never been easier.

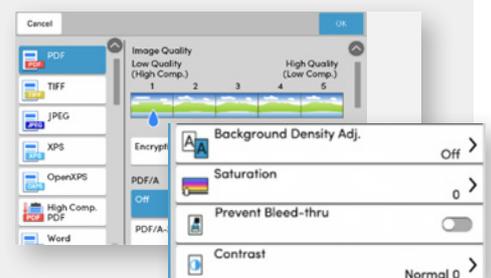

### Simple

Standardized icons and graphics makes it easy to navigate the interface.

### Intuitive

Emphasize important information and use gestures to select target items.

### Efficient

Work quicker with less steps along with quick-switch settings.

# Productivity You Can Rely On

To drive your productivity, two key areas must be addressed: Optimized printer performance and downtime. **The TASKalfa 7054ci series does both.** With the high print speed and Kyocera's reputation of highly reliable products, the TASKalfa 7054ci series delivers exceptional quality without the wait.

## Re-energize the way you work.

### Prevention > Cure

Seamless scan to folder set up, easy tilted documents correction, and staple detection ensures your team can continue to work at full velocity.

### Enhanced Fault Isolation Function

When a failure occurs in the MFP, only functions related to the failure are disabled, meaning other functions can be used after restarting, thus reducing user downtime.

### Performance Upgrades

Compared to its predecessor, the TASKalfa 3554ci offers close to a 10% increase in print speeds (35 ppm) while paper capacity has been boosted by 18.5% to 320 sheets.

### Multi Cropping

Quickly and efficiently scan multiple receipts or business cards to digitize the data at once. Users can subsequently save each document separately in the relevant folder.

# Enhanced Function for Scanning, Printing and Copying

In addition to high-speed printing, the Taskalfa 7054ci series boosts your productivity with a variety of output styles. Booklet binding, Z-folding, stapling, punching, etc. can be processed automatically by using a Z-Fold Unit or Inserter with Finisher.

## Z-Folding

Optional Z-Fold unit provides 4 types of folding and two types of multi-sheet folding, expanding the range of business with more flexible operations.

*\* Only available on 60ppm/70ppm models.*

Multi-sheet Inner Tri-fold

Multi-sheet Outer Tri-fold

Z-fold

Bi-fold

Inner Tri-fold

Outer Tri-fold

## Multiple cropping

This can make multiple receipts or business cards to digital data efficiently by scanning simultaneously, and saving them as individual files.

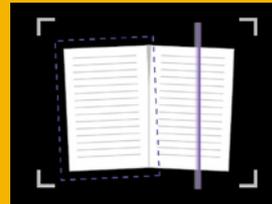

Scan up to 16 sheets at once

Autosave by page or file

## Tilt correction

When scanning thick documents with a two-page spread such as books on the platen with open DP or Platen cover, it will auto detect and correct tilted page.

Auto detect tilt when scanning

Tilt correction

## Set up of "Scan to Folder"

To send images scanned by the MFP to a folder on the PC via SMB, it is necessary to make complicated settings on the MFP and PC. Using this tool, you can easily set folder sharing settings and register in the MFP's address book by following the wizard, and setup can be completed smoothly.

## Multi inserter

You can add two types of paper as cover paper or insert paper. In addition, by combining options such as saddle stitch, inner Tri-fold, and inner fold, you can perform a variety of post-processing that increases the value of printed materials. This makes it possible to create a wide variety of booklets with covers and simple catalogs.

*\* Only available on 60ppm/70ppm models.*

# Protect Your Business Against New Security Threats

Cyberthreats soar during periods of disruption. Today is no different.

Are you happy to leave the fate of your valuable documents and data to chance? With the TASKalfa 7054ci series, you don't have to run the risk.

The TASKalfa 7054ci series provide enhanced device and document security that address not only today's challenges, but the challenges of tomorrow as well. Security starts from the ground up and Kyocera ensures your data; your device and your network are always protected.

The following are just some of the standout security features of the TASKalfa 7054ci series:

## Secure/Multipurpose Internet Mail Extensions (S/MIME)

Improves the security of email encryption by providing security for authentication, message integrity, the use of digital signatures and privacy and data security.

## Simple Certificate Enrollment Protocol (SCEP)

Automatically ensures that the device has the latest security certificates and makes the issuing of digital certificates as effortless as possible.

## Online Certificate Status Protocol/Certificate Revocation (OCSP/CRL)

Provides settings that can verify the validity of the certificates used in encrypted communications.

## Security Information and Event Management (SIEM)

Provides the ability to log security events that help monitor potential unauthorized operations like malware, intrusions and information leakage.

## TLS version 1.3 support

A faster, safer and more secure method of cryptography that encrypts data by providing secure communication between web browsers and servers.

**Kyocera has been accredited with ISO 27001 certification, recognizing its commitment to the highest standards of information security management across the business.**

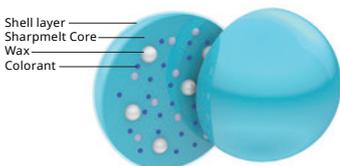

# Environment

At Kyocera, we are committed to doing the right thing as a human being. We work hand in hand with our customers and partners so that they get the solutions they need while we collectively reduce our overall carbon footprint. The new TASKalfa 7054ci series marks another important step in this strategy.

Equipped with ARM A53 (Quad Core) 1.6GHz CPU's to improve overall performance, energy consumption during sleep mode has been significantly reduced from 0.7W to 0.4-0.5W for both devices. Not only does this help boost your eco-credentials, you also save on your energy bills!

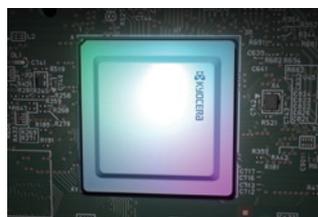

## Use of eco-friendly toner originally developed by Kyocera

The use of nano-particle structure micro toner reduces the burden on the environment. Our exclusive formula does not include use of organic solvents, but only requires a very small amount of water during the production. The toner can be attached to the paper at low temperature, reducing the power consumption during printing.

## Minimize standby power consumption

Reducing standby power consumption for printers and multifunction devices in offices is also one of the important environmental issue. Our exclusive power-saving controller minimizes the standby power in sleep mode without compromising your business operation and productivity.

## Reusing emptied toner cartridges

The emptied black toner cartridge can be used as a container for wasted toner, which does not only reduces the generation of waste but also reduces the costs while saving resources.

## TEC reduction

Equipped with an advanced energy-saving controller, the power consumption during sleep mode is able to be controlled at about 0.4W-0.5W.

**Work more efficiently while reducing your carbon footprint.**

Main Specifications				
Model	TASKalfa 2554ci		TASKalfa 3554ci	TASKalfa 4054ci
Main Function	Copy, Print, Scan, Fax (Optional)			
Writing Method	Semiconductor Laser			
CPU	ARM A53 1.6GHz			
Print Speed (A4) (Mono/Color)	25/25 ppm	35/35 ppm	40/40 ppm
